Mr. Conrad,

We know you are not our client in the above-captioned matter, but we are hoping you can help us nevertheless.

Attached please find a discovery request for the production of documents from opposing counsel in the above-captioned case. If you could, kindly provide responses and corresponding documents for all questions *not* marked "OBJ".

We sincerely apologize for the late notice, but kindly have these documents to us by our opening on December 5, 2007.

Please contact Dave Maloof or myself with any questions.

**To:** 'David Maloof'  
**Subject:** RE: Fortis v. UVL / our ref. 2202.04 / \$ 50,094

David:

In response to yours of Aug. 14, there are a few issues needing attention before we can divine UVL's moral obligations.

First, our investigation discloses that the goods were properly secured within the vehicle, but the shipper-packed units were poorly assembled in Chicago before being loaded causing them to fall apart in transit.

Second, the agreed limitation in the service contract and tariff is \$5 per pound per article. UVL has not had an opportunity to do a proper inspection because the subject items were not ready for MTI's viewing. If you will give us dates when they can be staged and segregated for MTI's inspection, we will expedite same from our end.

Third, all we have to support plaintiff's figures is its summary. We need copies of any documents on which plaintiff relies for its claimed itemized repair, replacement and labor amounts.

Fourth, Praxair's lack of traction even within the SDNY, let alone other courts, speaks for itself. But if AGFA contends that it paid a separate risk-related "strapping" charge to UVL, please provide us with any supporting documents.

Fifth, we are still searching for evidence of a written claim being timely-filed with UVL and would appreciate your prompt assistance in resolving this issue so we can focus on the others.

Best regards,

George W. Wright

**To:** gwright@wright-associate.com  
**Subject:** Fortis v. UVL / our ref. 2202.04 / \$ 50,094

George, nice speaking to you-.

1. I have looked over this file and not only is the heavy damage noted upon delivery on the bill of lading, it is also noted thereon that the load was not strapped, as expressly required on the bill of lading.
2. If that is the case, then the "possible" problems in packaging that you referred to related to other shipments would be irrelevant.
3. The b/l has a weight of 28,000 pounds, and there are a massive volume of heavy pieces damaged, and therefore limit of liability does not come into play
4. Nor could limit of liability matter in this District, per the Praxair and Allied decisions, for cargoes that are left unstrapped.

I know that is hard for a defense lawyer to flat out tell his client when he has to do the morally responsible thing and reimburse a customer

for damage, but this would seem to be the textbook case for that approach.

Please look hard at this file for settlement and maybe we can give you a small discount before we have to consider responding to voluminous discovery, Rule 26 and all that good stuff which we both know how to do! But we also both know that there are limited additional meaningful facts to disclose, and this is really a tiny case in the scheme of the world.

What else can I give you to make this happen?

Sincerely,

David T. Maloof

**Subject:** RE: Re:Fortis v. UVL; Our Ref: 2202.04

David:

Since our last correspondence, we determined that Bohren's received Impact's Damage Assessment Report in 2/06 shortly after its preparation date.

We are still awaiting UVL's copies of any MTI reports/photos relating to the shipments before deciding on a further inspection. Please clarify whether the goods are still available for inspection in their delivered or repaired condition and, if so, their present location. The attached e-mails do not appear to be between Impact and MTI but, instead, to and from Agfa's freight bill agent, Freight Traffic Services.

In the meantime, we would appreciate receiving a copy of the 3/16/06 letter from UVL adjuster Linda Svatek, the United adjuster reports and color copies of Impact's digital photos referenced in its 3/30/06 letter.

Thanks for your cooperation.

George W. Wright

**Subject:** RE: Re:Fortis v. UVL (Your Ref: 2202.04) (UVL No. 10000000470)

David:

In anticipation of the Oct. 10 settlement conference, the following documents and information, some of which have been previously requested, would be very helpful.

First, after sorting out the various shipments, it appears that the relevant one moved under UVL Order No. 626-7242-5 as stated in Impact Unlimited's March 30, 2006 letter to UVL. We understand this shipment was hauled by Robert Rolling SLC and not Bohren's. If Impact or AGFA has any carrier inventory or other record, besides the B/L, reflecting the condition of the above order, and any other order with alleged damage, please provide us with copies.

Second, with respect to the items listed in Impact's damage summary, dated Feb. 24, 2006, please advise:

- (a) whether these items represent the entire claim and, if not, identify any other relevant goods and provide supporting documents;
- (b) whether these items were repaired and, if so, provide us with all supporting repair, replacement, salvage, labor and other documents supporting the claimed amounts;
- (c) whether these items are still available for further inspection and, if so, when and where;
- (d) whether Impact or AGFA have any catalogues, parts lists, packing lists, spec. sheets or other documents listing the descriptions, specs., weights, prices and similar data for the items at issue. If so, please provide copies to us.

Third, please provide us with clear duplicates of the seven (7) photos purportedly showing the condition of the goods before unloading at destination, and any other photos of the items in suit.

Thanks for your continued assistance.

George W. Wright

David:

We conveyed your settlement proposal and UVL wants to go ahead with inspecting the items that have been repaired and are awaiting repairs.

As soon as you can provide us with their location and availability, we will line up MTI. Without waiving UVL's other discovery requests, it would expedite settlement if we had all the back-up for the \$59,000 in repair costs claimed in Impact's Feb., 2006 statement and the other Shipping Lists as requested in our previous e-mails.

David:

This responds to your Oct. 22 e-mail.

At first you state that the limitation is 50% of the claim, but then advise that the estimates for unrepaired items far exceed the limitation and plaintiff expects payment on the estimates. Please explain.

We are not accustomed to accepting photo inspections and, in all modesty, my legal judgment trumps MTI's. The sooner we get the inspection done, the better.

As UVL was not responsible for packaging the goods, it does not follow that UVL's liability is undisputed because of MTI's "no packaging" notation.

If AGFA has still not repaired most of the goods and has no repair bills, please provide us with whatever documents plaintiff does have reflecting incurred and projected repair costs. Also, please clarify who is the "final client" and what are they waiting for after two years?

**Subject:** RE: Fortis v. United Van Lines (Our Ref: 2202.04) WITHOUT PREJUDICE UNDER FRE 408

If your case did not satisfy the jurisdictional amount, Judge Sweet would have dismissed it long ago.

We doubt that a premature settlement conference with the Magistrate would be productive if it is set before the third-party defendants appear in the case, or before plaintiff produces the goods for inspection. In any event, we will comply with the Magistrate's rules.

We understand there is no package limitation and either a \$5 or \$10 per lb. per article limitation applies. UVL reserves all defenses with respect to liability and damages. We expect to be in a better position to discuss both after the inspection and after the third party defendants' driver is interviewed or deposed.

Please confirm this week that plaintiff will comply with its Rule 34 obligation to produce the goods for inspection as soon as the third party defendants are in the case. UVL and the third party defendants not going to pay \$8,000 to inspect 14 items, but we are willing to recommend a reasonable hourly rate to stage the goods.

George W. Wright

**Subject:** RE: Fortis v. United Van Lines (Our Ref: 2202.04) WITHOUT PREJUDICE UNDER FRE 408

As you know, Judge Sweet has indicated that he wants this case (which is less than the normal jurisdictional amount to even be in federal court) settled as soon as possible. A settlement conference with Magistrate Judge Freeman will be held shortly. We will be forwarding discovery responses this week.

Now that there is no package limit, the issue is what are the remaining defenses? I know that you claim that the packaging was poor and that this caused the loss but as the photos upon delivery show that the cargo was not strapped (although required to be). It is simply impossible to now with hindsight to claim that the packaging was the sole cause the loss. So our client will not consider any discount related to liability issues.

Please confirm this week as follows:

1. That you and your client will personally appear at the settlement conference, and not send an associate who has no authority to discuss the issues.
2. That if you still wish to inspect the damage cargo for the third time, you will complete that before the conference.
3. What material damages issues really exist and which you wish us to address in advance of the conference so that we can have fruitful negotiations and bring this claim to a prompt resolution.

Thank you.

1. We agree to attempt to defer the mediation until all parties are present. Please serve them immediately.
2. The fee charged for the inspection is set by the third-party holding the goods and whatever fee you agree with them is fine with us. Our client does not presently possess the goods and can not set their rates for them.
3. If a short deposition of the truck driver would be useful we would like to appear by telephone to save costs.

Civil Action No. 07-CV-4050 (RWS) (DCF)  
Our File No. 11625**

Dear Magistrate Freeman:

We are counsel for defendant United Van Lines, LLC ("United") in the above action.

With chambers' permission, we are writing to request a telephone or in camera conference to resolve certain discovery issues.

Since August, 2007, we have made several written requests to plaintiff's counsel for an inspection of the shipped property that is the subject of this subrogation action. Plaintiff contends it is only an insurer and does not "possess" the goods. United contends that plaintiff, as the subrogee of its insured cargo owner, has legal control over the goods and an obligation under Fed.R.Civ.P. 34 to produce them for inspection. Physical possession of requested items is not necessary to establish "control" over them for discovery purposes, which is broadly construed by this Court. See, U.S. v. Stein, 488 F. Supp. 2d 350, 361 (S.D.N.Y. 2007). Treatment of both subrogor and subrogee as parties with a substantial interest in litigation is proper where to do otherwise would frustrate discovery. The Bank of New York v. Meridien Biao Bank Tanzania Ltd., 171 F.R.D. 135, 148 (S.D.N.Y. 1997).

United requested plaintiff to provide available inspection dates in January, 2008 and the location where the goods will be made available, however, plaintiff has not responded (see attached letter, dated December 12, 2007).

Dear Magistrate Judge Freeman:

We are counsel for plaintiffs in the referenced matter.

We write to respond to defense counsel's letter of today in which he advises that we do not respond to his discovery letter dated December 12, 2007.

In point of fact, we responded to his letter on December 13, 2007 and we believe that our response resolves all of the issues therein.

If Mr. Wright had telephoned us (as is required by the rules of this Court) before writing to the Court he would have known that our response had already been sent to him.

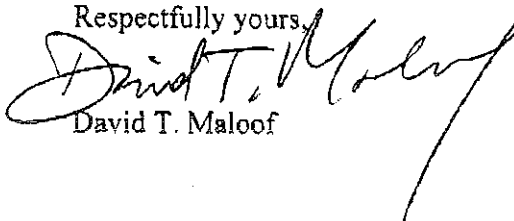

For example, he complains that we have not responded to his requests to inspect the cargo, when in fact we have responded on numerous occasions and in our letter of December 13, 2007 gave him the telephone number to call (since the cargo is being held by a third-party) and told him he can inspect it any time he wishes so long as he gives us reasonable notice any pays the cost of inspection.

Our office is closed from December 24 to January 2, but if anything remains to be considered by the Court in January we would be happy to address such

issues. However, we do believe that our letter of December 13, 2007 resolves any outstanding discovery issues, and we would expect that Mr. Wright would review it and take up any remaining issues with us directly before contacting the Court again in this modest-sized case.

Thank you for your consideration.

Respectfully yours,

A handwritten signature in black ink, appearing to read "David T. Maloof", with a long, sweeping flourish extending from the bottom right.

In the sdny, you can not write to the judge unless you call us. first. Letters do not suffice.

Please follow that rule from now on.

We would prefer not to have to seek ssnctions. But you must follow the court rules.

Subject: RE: Fortis v. United Van Lines (Our Ref: 2202.04) WITHOUT PREJUDICE UNDER FRE 408

If your case did not satisfy the jurisdictional amount, Judge Sweet would have dismissed it long ago.

We doubt that a premature settlement conference with the Magistrate would be productive if it is set before the third-party defendants appear in the case, or before plaintiff produces the goods for inspection. In any event, we will comply with the Magistrate's rules.

We understand there is no package limitation and either a \$5 or \$10 per lb. per article limitation applies. UVL reserves all defenses with respect to liability and damages. We expect to be in a better position to discuss both after the inspection and after the third party defendants' driver is interviewed or deposed.

Please confirm this week that plaintiff will comply with its Rule 34 obligation to produce the goods for inspection as soon as the third party defendants are in the case. UVL and the third party defendants not going to pay \$8,000 to inspect 14 items, but we are willing to recommend a reasonable hourly rate to stage the goods.

George W. Wright

Subject: RE: Fortis v. United Van Lines (Our Ref: 2202.04) WITHOUT PREJUDICE UNDER FRE 408

As you know, Judge Sweet has indicated that he wants this case (which is less than the normal jurisdictional amount to even be in federal court) settled as soon as possible. A settlement conference with Magistrate Judge Freeman will be held shortly. We will be forwarding discovery responses this week.

Now that there is no package limit, the issue is what are the remaining defenses? I know that you claim that the packaging was poor and that this caused the loss but as the photos upon delivery show that the cargo was not strapped (although required to be). It is simply impossible to now with hindsight to claim that the packaging was the sole cause the loss. So our client will not consider any discount related to liability issues.  
Please confirm this week as follows:

1. That you and your client will personally appear at the settlement conference, and not send an associate who has no authority to discuss the issues.
2. That if you still wish to inspect the damage cargo for the third time, you will

complete that before the conference.

3. What material damages issues really exist and which you wish us to address in advance of the conference so that we can have fruitful negotiations and bring this claim to a prompt resolution.

Thank you.

Sincerely,

David T. Maloof

Subject: Fortis v. United Van Lines (Our Ref: 2202.04) WITHOUT PREJUDICE UNDER FRE 408

Mr. Wright,

Dave Maloof asked me to write to you regarding the transportation agreement United Van Lines entered into with AGFA on November 12, 2004. Item 08 of this agreement, labeled "Carrier's Liability," declares a released value of \$10.00 for displays and exhibits. In addition, Item 07 reads as follows: "To the extent any such document [including bills of lading] shall contain matters which conflict with this Agreement or any part thereof, the terms of this Agreement shall govern." So the contract controls over the bill of lading. These provisions in the master agreement between UVL and AGFA would make the package limitation for Truck #5 alone \$67,500.00, well above the claim amount. With the package limitation out, we must insist on a higher settlement figure going forward.

Regards,

Todd A. Barton

Civil Action No. 07-CV-4050 (RWS) (DCF)  
Our File No. 11625**

Dear Magistrate Freeman:

We respond to the letter, dated December 19, 2007, from plaintiff's counsel to the Court concerning defendant United Van Lines, LLC's ("United's") outstanding discovery requests to plaintiff.

Although our December 12, 2007 good faith letter to plaintiff's counsel clearly advised our intention to apply to the Court if we received no response by the close of December 19, we had received no written or telephonic response to our letter as of yesterday. There is no rule requiring counsel to call a defaulting party to plead for compliance with discovery before applying to the Court.

Although virtually all of our communications have been via e-mail, we finally received today by regular mail plaintiff's counsel's December 13, 2007 letter that purportedly resolves all outstanding discovery disputes. As expected, though, plaintiff refuses to produce in New York any of its representatives identified in United's deposition notice. Plaintiff even declines to produce a designated representative of its own insured, Agfa Corp. With respect to United's outstanding document requests, plaintiff merely repeats its statement that documents "will be produced" without any timetable.

Plaintiff's strategy is nowhere more apparent than in its attempt to thwart United's request for a Rule 34 inspection of the shipment. Although United has been requesting an inspection since August, plaintiff now advises that its

“third-party” custodian cannot make the goods available until “mid-January 08” at the “earliest.” Plaintiff identifies four (4) relevant cargo units, each weighing from 365 lbs. to 5,000 lbs. To make these four (4) units available to United’s inspector, however, plaintiff’s “third-party” is demanding that United pay “\$6,000 to \$8,000” to obtain crucial discovery in what plaintiff repeatedly characterizes as a “modest-sized case.” This is pure and simple discovery obstruction.

With a March 5, 2008 discovery deadline looming, United cannot indulge plaintiff’s “hide-the-ball” tactics. Absent a court order directing plaintiff to produce the shipment for inspection at a date, time and place certain and resolving the other matters, it is clear that the inspection will not occur and United’s discovery requests will not be properly answered.

We are concerned that plaintiff’s plan is to “run down the clock” on remaining discovery time to evade United’s demands. We believe close supervision by the Court is needed to ensure plaintiff’s compliance with discovery and respectfully request a discovery conference with counsel.

Thank you for your attention and consideration.

Respectfully submitted,

Our Ref: 2202.04

---

Dear Magistrate Judge Freeman:

We are counsel for plaintiffs in the referenced matter.

We are extremely disappointed that while defense counsel now admits receiving our letter of December 13, he has once again written to the Court without first conferring with us as required by the local rules of this Court. This is the second time he has done this.

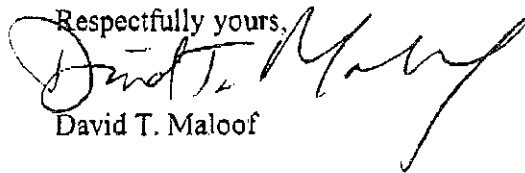

On that basis alone, we ask that the Court deny his application for a discovery conference.

Since this is the second intentional violation of the rules of this Court, we also ask the Court for our attorneys fees, for having to draft yesterday's letter and this letter.

If the Court were to get to the merits, it would learn that there is no legitimate discovery dispute because the requested documents have been produced, the witnesses are available, and the cargo is available for inspection upon a payment of the third party's time to coalate and present this machine, with a value of over \$1 million, in a timely and safe manner. But again, the Court should not even consider this issue because Mr. Wright has not even once telephoned us to discuss it.

We wish the Court, Mr. Wright, and all concerned a Merry Christmas and a Happy New Year.

Thank you for your consideration.

Respectfully yours,  
  
David T. Maloof

**Re: Fortis Corporate Insurance, N.V. v. United Van Lines, LLC**  
**Civil Action No. 07-CV-4050 (RWS) (DCF)**

Honorable Sir:

We are counsel for defendant United Van Lines, LLC ("United") in the above matter and are writing to request the Court's direction with respect to certain discovery disputes between plaintiff and United.

On December 19, 2007, we wrote to Magistrate Judge Debra C. Freeman to request her assistance in resolving the parties' discovery disputes. During a telephone conference this afternoon with counsel, however, Magistrate Freeman advised us that her authority under the Order of Reference, dated November 29, 2007, is limited to settlement conferencing.

Accordingly, we would greatly appreciate the Court's guidance in resolving the above issues.

Thank you for your attention and consideration.

Respectfully submitted,

George W. Wright

Our office is closed until January 2nd, but we can briefly respond to Mr. Wright's eve of holiday letter by advising that Mr. Wright has failed, despite multiple requests, to telephone us even one time as required by the Local Rules concerning what he describes as "discovery disputes." He even filed to telephone us after Magistrate Freeman directed that he do so on Friday as part of her initial settlement conference.

We will telephone Mr. Wright once again upon our return to the office on January 2<sup>nd</sup> and we are quite certain that these so-called "disputes" can be worked out and/or that the case can be settled during our next conference with Magistrate Freeman on January 23<sup>rd</sup> if we all proceed in good faith. We will notify the Court if that is not the case.

Merry Christmas! Thank you.
